Introduction

1. This test is for your private use. It is designed to help you assess your firm's potential exposure to malpractice.
2. The test should take no more than 30 minutes. Don't labor over the questions. Answer them honestly and objectively.
3. There are 100 questions. Each "yes" answer scores one point. At the end of the test you can total your score and see how you rate. What are the strong and weak points of your practice?
4. Simply by taking the test you will obtain helpful information on malpractice exposure and prevention. Of course, the test does not cover all risk management considerations.
5. A good time for taking the test is just before your annual planning and budget session; or perhaps when your Lawyers Mutual policy comes up for renewal.
6. Feel free to share the test throughout the office. Ask each member of your staff to take the test. Compare results.
7. After the test, prepare a list of actions you should take to prevent malpractice claims and improve your firm's risk management efforts.

This test originally prepared by Lawyers Mutual of North Carolina. Test was updated by Lawyers Mutual of Kentucky and reprinted with permission for use by LMICK policyholders. Questions? Contact us at risk@lmick.com.
